

# Rollbox RBX®

## YOUR BENEFITS AT A GLANCE

- + Sturdy roll base with good stack stability
- + Long service life due to proven materials
- + Transportation without any additional equipment
- + Easy handling due to low inherent weight
- + Suitable for automatic conveyor systems
- + Easy integration in your processes
- + Rapid loading and unloading of lorries
- + Corporate branding possible
- + Easy to clean

# Rollbox RBX®

## INDIVIDUAL COMPONENTS

### Plastic roll base with castors

Roll base view from above

Roll base view from below, with metal stiffeners

#### Base

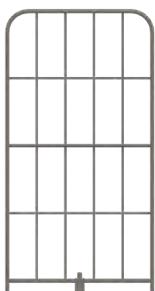

- Plastic material HDPE, food-safe, UV stabilised, recyclable
- Operating temperature -30°C to +50°C, +90°C (cleaning) for brief periods
- Dimensions: 720x815x60 mm
- 2 diagonal metal stiffeners and 1 lateral metal stiffener
- Available in all RAL colours for orders of 100 or more
- Marking with hot embossing in standard lettering or with customer's own lettering and logo on request
- Lettering colours: white, black, yellow red
- Load capacity 500 kg (only when combined with side walls)

#### Castors

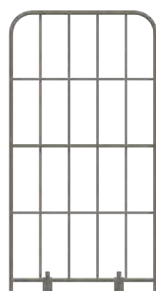

- 2 swivel castors and 2 fixed castors
- Diameter 100 / 108 / 125 mm
- Bracket made from zinc-plated sheet steel, stainless steel available on request
- Castors available in PP, PA, PU, elastic or sandwich designs
- Swivel castors available with brake

#### Special feature

- Suitable for automatic conveyor systems
- 2 recessed surfaces for adding bar codes on the narrow side
- Parallel or nested stacking possible

Side wall with one bracket

Side wall with two brackets

### Side walls

#### Dimensions

- Usable heights 1350, 1450 and 1700 mm
- Other usable heights available on request

#### Surface

- Galvanised
- Powder coated
  - Standard colours RAL 3000, RAL 5010, RAL 6002
  - Other RAL colours available on request

#### Material

- Frame from round tube 21.3 x 1.75 mm
- Infill from flat steel 12x3 mm and/or round tube 16x2 mm
- Spot welding or MIG welding

#### Special feature

- Option of one or two brackets per side wall for fixing to the plastic roll base
  - **Benefit:** improved stability and more secure seating, therefore easier to push and pull

## ACCESSORIES

Plastic shelf

### Plastic shelf

- Plastic material HDPE, food-safe, UV stabilised, recyclable
- Available in all RAL colours for orders of 100 or more
- Marking with hot embossing in standard lettering
- Lettering colours: white, black, yellow, red
- Pay load 150 kg or 200 kg
- With 3 or 5 metal reinforcements
- Option of shorter design when using rear wall

Rolling container with shelf and side wall

Fixing with plastic clips

### Rear wall

#### Dimensions

- Usable heights 1350, 1450 and 1700 mm
- Other usable heights available on request

#### Material

- Frame from round tube 21.3 x 1.75 mm
- Infill from flat steel 12X3 mm and/or round tube 16x2 mm
- Spot welding or MIG welding

#### Surface

- Galvanised
- Powder coated
  - Standard colours RAL 3000, RAL 5010, RAL 6002
  - Other RAL colours available on request

Fixing with plastic clips and screws between side walls

Textile straps

### Tension straps

#### Textile straps

- PP material
- Tensile strength up to 75 kg
- With strap, clamp lock and wire hooks
- Length approx. 1000 mm
- Colours RAL 1018, RAL 3020, RAL 5010

#### Rubber straps

- High-quality natural rubber
- Available with different hooks and eyelets
- Max. clamping area from 750 mm to 1100 mm

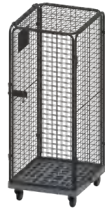

Rubber straps
